

YOU'RE INVITED

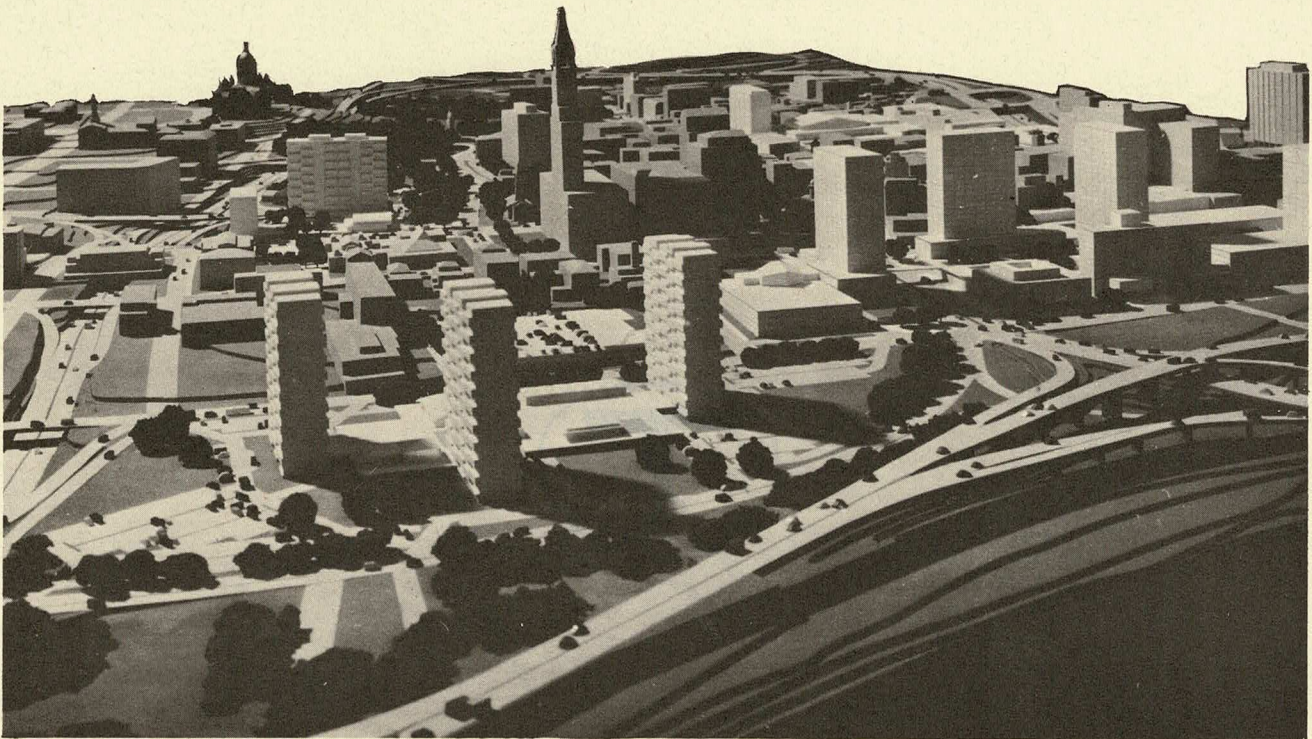

TO SEE A MODEL OF "DOWNTOWN HARTFORD OF THE FUTURE"
NOW ON DISPLAY IN COURT HALL.

Hartford is building today for a better tomorrow. Stop by and see our dream city of the future. It's well on its way to becoming a reality.

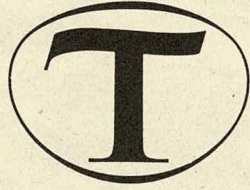

The Travelers has taken an active interest in redevelopment in our city, recognizing the need for renewal of the vital business core when blight and decay threatened to spread even beyond that area.

Just a few months ago when it appeared that the East Side redevelopment project might be delayed, The Travelers formed a corporation, Constitution Plaza, Inc., to provide the financial backing needed to begin this \$40 million rejuvenation project.

The Travelers investments are working throughout the United States and Canada. Amounting to more than three billion dollars, these funds constitute an important source of capital in our economy.

Constitution Plaza goes beyond being just a sound financial investment. It is also an investment in the future of our city.
